TOP FEATURES

- The Bluetooth 5.1 FM transmitter enables wireless music streaming via A2DP and secure hands-free calling via HFP. The stable connection ensures reliable audio transmission and clear voice quality while driving.
- Smartphones, tablets and navigation devices can be charged significantly faster than with conventional chargers thanks to USB Quick Charge 3.0 and 20 W Power Delivery. Practical for long car journeys and everyday use.
- Echo and noise cancellation ensure clear sound quality during phone calls and music playback. The LED display makes it easy to read the frequency, while USB sticks can play MP3, WMA or WAV files.
- Power is supplied directly via the 12–24 V cigarette lighter socket, so no additional installation is required. Ideal as a hands-free kit for cars, lorries or motorhomes.
