TechniSat DiGYBOXX T4

Digital terrestrial receiver for the reception of free-to-air channels (FTA) in standard (SD) and high-definition quality (HD)

DiGYBOXX T4 allows you to receive unencrypted channels in DTT format in high definition quality.

The USB interface allows you to connect an external hard disk drive and to use the DiGYBOXX T4 as a personal video recorder (PVR).

The handling of DiGYBOXX T4 is unique. The on-screen menu is systematically structured and the automatic procedures allow a simple and convenient handling at the same time.

Thanks to AutoInstall, you will easily find all the channels.

Colour

black

Scope of delivery

DiGYBOXX T4, remote control with batteries, power cable, Manual CD, Quick Start Guide.
